

**OFFICIAL PROCEEDINGS OF THE  
BOARD OF COMMISSIONERS  
BLUE EARTH COUNTY, MINNESOTA**

**May 21, 2019**

The County Board of Commissioners met in the County Board Room at 9:00 AM.

Present were Commissioners Kip Bruender, Colleen Landkamer, Mark Piepho, Will Purvis, and Vance Stuehrenberg. Also present were County Administrator Robert Meyer, County Attorney Division Chief Michael Hanson, and Communications Specialist Amy Holst.

Board Chair Purvis called the meeting to order.

**PLEDGE**

All present said the Pledge of Allegiance to the Flag.

**AGENDA REVIEW**

Commissioner Piepho moved and Commissioner Stuehrenberg seconded the motion to approve the agenda. The motion carried. 2019-134

**CHILDCARE FORGIVABLE LOANS**

John Hollerich, Mayor of Mapleton and Patty Woodruff, City of Mapleton Administrator, presented a Childcare Forgivable Loan request.

Commissioner Bruender moved and Commissioner Landkamer seconded the motion to approve a request from the City of Mapleton and the Child Care Center of Mapleton in the amount of \$35,000.00. The motion carried. 2019-135

**ENVIRONMENTAL SERVICES**

Mr. Garrett Rohlring, Land Use Specialist, Mr. Aaron Stubbs, Land Use Planner, and Mr. George Leary, Environmental Services Supervisor, presented the following items to the Board:

Commissioner Landkamer moved and Commissioner Stuehrenberg seconded the motion to approve the following resolution:

**RESOLUTION GRANTING APPROVAL OF A CONDITIONAL USE PERMIT TO CONSTRUCT AND OPERATE ONE NEW TOTAL CONFINEMENT SWINE FINISHING BARN CAPABLE OF HOLDING 2,400 FINISHING PIGS, OR 960 ANIMAL UNITS. SAID REQUEST WILL UTILIZE A BELOW-BARN LIQUID MANURE STORAGE AREA. THE PROPERTY IS LOCATED IN THE AGRICULTURAL ZONED DISTRICT IN SOUTHERN PORTION OF THE SOUTHEAST QUARTER OF THE SOUTHEAST QUARTER OF SECTION 5, LYRA TOWNSHIP. (T-106-N, R-27-W)**

**WHEREAS**, Matt J. Hollerich, owner of the following real estate in the County of Blue Earth, Minnesota, to wit:

That Southern Portion of the Southeast Quarter of the Southeast Quarter of Section 5, Lyra Township, Blue Earth County, Minnesota, as shown on Attachment A – Location Map.

**WHEREAS**, the Planning Agency of the County has completed a review of the application and made a report pertaining to said request (PC 09-19), a copy of said report has been presented to the Planning Commission; and,

**WHEREAS**, the request to allow a feedlot is consistent with the Land Use Plan, and Agricultural Zoning District Conditional Uses, as authorized by the Blue Earth County Board of Commissioners; and,

**WHEREAS**; the Planning Commission of the County on the 1<sup>st</sup> Day of May 2019, following proper notice held a public hearing regarding the request, and following due consideration of presented testimony and information, voted unanimously to forward the matter to the County Board with a recommendation for approval subject to conditions contained in staff report PC 09-19 and,

**WHEREAS**; the County Board on the 21<sup>st</sup> Day of May 2019, held a public hearing regarding the request, and following due consideration of presented testimony and information, voted unanimously to approve the request subject to conditions contained in staff report PC 09-19 and,

**WHEREAS**, the Blue Earth County Board of Commissioners finds:

1. That the proposed use conforms with the county land use plan.
2. The demonstrated need for the proposed use.
3. That the proposed use will not degrade the water quality of the county.
4. That the proposed use will not adversely increase the quantity of water runoff.

5. That soil conditions are adequate to accommodate the proposed use.
6. That the proposed use does not create a potential pollution hazard.
7. That adequate utilities, access roads, drainage and other necessary facilities have been or are being provided.
8. That adequate measures have been or will be taken to provide sufficient off-street parking and loading space to serve the proposed use.
9. That facilities are provided to eliminate any traffic congestion or traffic hazard which may result from the proposed use.
10. That the conditional use will not be injurious to the use and enjoyment of other property in the immediate vicinity for the purposes already permitted.
11. That the establishment of the conditional use will not impede the normal and orderly development and improvement of surrounding vacant property for predominant uses in the area.
12. That adequate measures have been or will be taken to prevent or control offensive odor, fumes, dust, noise and vibration, so that none of these will constitute a nuisance, and to control lighted signs and other lights in such a manner that no disturbance to neighboring properties will result.
13. That site-specific conditions and such other conditions are established as required for the protection of the public's health, safety, morals and general welfare.

**NOW THEREFORE BE IT RESOLVED**, by the Blue Earth County Board of Commissioners, that the Conditional Use Permit to) is hereby **GRANTED** with the following conditions:

1. That the total confinement barn conforms to the site plan attached to this report PC 09-19
2. That the feedlot be located on a single, legally described parcel consisting of a minimum of 10 contiguous acres. The parcel shall be a parcel of record, properly recorded in the Blue Earth County Taxpayer Services Office.
3. That the applicant must obtain a Blue Earth County Feedlot Permit before any animals are placed in the barn.
4. That the applicant obtains a Blue Earth County Construction Permit before building begins and within one (1) year from the date the County Board of Commissioners approves the Conditional Use Permit. The permit shall be rendered invalid if application for a Construction Permit is not made within this one (1) year period. Time extensions for

Conditional Use Permits must be obtained from the County Board of Commissioners subsequent to a public hearing conducted by the Planning Commission.

5. That a perimeter footing drain tile be located at or below the bottom of the pit footings. The footing tile shall include one inspection pipe for each concrete pit. The native materials must be excavated, and walls back filled with granular material (pit run gravel or equivalent). *Exceptions to this may only include specific design standards submitted by the design engineer of the manure storage structure.*
6. The application of manure shall comply with standards set forth by the MPCA and the County. The applicants manure management plan must be reviewed by the operator each year and updated each year and adjusted for any changes in the amount of manure production, manure nutrient test results and transfer of manure ownership. Records of manure transfer shall be maintained as required by the MPCA. Manure application setback standards for the fields on which the manure is applied shall be followed as required by the MPCA and the County.
7. That the disposal of dead animals be consistent with the Minnesota Board of Animal Health regulations. When rendering is used as a mortality disposal the applicant shall provide an enclosed location for the pick-up.
8. That adequate measures be taken to minimize or control offensive odor, fumes, dust, noise, or vibrations so that none of these will constitute a nuisance.
9. That all manure storage structures must be designed by a registered engineer.
10. That within 60 days of completion of any new or modified manure storage area, the applicant shall furnish the final construction report to the County Environmental Services department verifying that the concrete manure storage structure was constructed per approved engineered design plan. Said construction report shall be signed by the design engineer.
11. That the applicant complies with the storm-water control requirements established by the MPCA.
12. That MPCA construction Best Management Practices be followed including erosion control measures.
13. That all exposed earthen surfaces be seeded into grass or utilized as crop acreage.

14. If a shower, restroom, culinary and/or laundry facilities are to be included with the proposal, that wastewater handling practices are designed and constructed according to state requirements.
15. All wells that are not in-use on the property must be properly sealed by July 31, 2019
16. All six existing liquid manure storage areas must be properly abandoned (manure contents removed) within one year of obtaining a construction permit for the purpose of constructing one new 2400 head swine finishing barn.

This Conditional Use Permit shall become effective immediately upon its passage and without publication.

The motion carried. 2019-136

Commissioner Bruender moved and Commissioner Stuehrenberg seconded the motion to approve the following resolution:

**RESOLUTION GRANTING APPROVAL OF A CONDITIONAL USE PERMIT TO CONSTRUCT AND OPERATE ONE NEW TOTAL CONFINEMENT SWINE NURSERY BARN CAPABLE OF HOUSING 4,000 PIGS UNDER 55 POUNDS, OR 200 ANIMALM UNITS. SAID REQUEST WILL UTILIZE A BELOW-BARN LIQUID MANURE STORAGE AREA. THE PROPERTY IS ZONED AGRICULTURAL AND IS LOCATED IN THE SOUTHEAST QUARTER OF THE NORTHEAST QUARTER OF SECTION 16, CERESCO TOWNSHIP. (T-106-N, R-29-W)**

**WHEREAS**, David A Pettersen, owner of the following real estate in the County of Blue Earth, Minnesota, to wit:

That Southeast Quarter of the Northeast Quarter of Section 16, Ceresco Township, Blue Earth County, Minnesota, as shown on Attachment A – Location Map.

**WHEREAS**, the Planning Agency of the County has completed a review of the application and made a report pertaining to said request (PC 10-19), a copy of said report has been presented to the Planning Commission; and,

**WHEREAS**, the request to allow a feedlot is consistent with the Land Use Plan, and Agricultural Zoning District Conditional Uses, as authorized by the Blue Earth County Board of Commissioners; and,

**WHEREAS**; the Planning Commission of the County on the 1<sup>st</sup> Day of May 2019, following proper notice held a public hearing regarding the request, and following due consideration of presented testimony and information, voted unanimously to forward the matter to the County

Board with a recommendation for approval subject to conditions contained in staff report PC 10-19 and,

**WHEREAS;** the County Board on the 21<sup>st</sup> Day of May 2019, held a public hearing regarding the request, and following due consideration of presented testimony and information, voted unanimously to approve the request subject to conditions contained in staff report PC 10-19 and,

**WHEREAS,** the Blue Earth County Board of Commissioners finds:

1. That the proposed use conforms with the county land use plan.
2. The demonstrated need for the proposed use.
3. That the proposed use will not degrade the water quality of the county.
4. That the proposed use will not adversely increase the quantity of water runoff.
5. That soil conditions are adequate to accommodate the proposed use.
6. That the proposed use does not create a potential pollution hazard.
7. That adequate utilities, access roads, drainage and other necessary facilities have been or are being provided.
8. That adequate measures have been or will be taken to provide sufficient off-street parking and loading space to serve the proposed use.
9. That facilities are provided to eliminate any traffic congestion or traffic hazard which may result from the proposed use.
10. That the conditional use will not be injurious to the use and enjoyment of other property in the immediate vicinity for the purposes already permitted.
11. That the establishment of the conditional use will not impede the normal and orderly development and improvement of surrounding vacant property for predominant uses in the area.
12. That adequate measures have been or will be taken to prevent or control offensive odor, fumes, dust, noise and vibration, so that none of these will constitute a nuisance, and to control lighted signs and other lights in such a manner that no disturbance to neighboring properties will result.
13. That site-specific conditions and such other conditions are established as required for the protection of the public's health, safety, morals and general welfare.

**NOW THEREFORE BE IT RESOLVED,** by the Blue Earth County Board of Commissioners, that the Conditional Use Permit to) is hereby **GRANTED** with the following conditions:

1. That the total confinement barn conforms to the site plan attached to this report PC 10-19
2. That the feedlot be located on a single, legally described parcel consisting of a minimum of 10 contiguous acres. The parcel shall be a parcel of record, properly recorded in the Blue Earth County Taxpayer Services Office.
3. That the applicant must obtain a Blue Earth County Feedlot Permit before any animals are placed in the barn.
4. That the applicant obtains a Blue Earth County Construction Permit before building begins and within one (1) year from the date the County Board of Commissioners approves the Conditional Use Permit. The permit shall be rendered invalid if application for a Construction Permit is not made within this one (1) year period. Time extensions for Conditional Use Permits must be obtained from the County Board of Commissioners subsequent to a public hearing conducted by the Planning Commission.
5. That a perimeter footing drain tile be located at or below the bottom of the pit footings. The footing tile shall include one inspection pipe for each concrete pit. The native materials must be excavated and walls back filled with granular material (pit run gravel or equivalent). *Exceptions to this may only include specific design standards submitted by the design engineer of the manure storage structure.*
6. The application of manure shall comply with standards set forth by the MPCA and the County. The applicants manure management plan must be reviewed by the operator each year and updated each year and adjusted for any changes in the amount of manure production, manure nutrient test results and transfer of manure ownership. Records of manure transfer shall be maintained as required by the MPCA. Manure application setback standards for the fields on which the manure is applied shall be followed as required by the MPCA and the County.
7. That the disposal of dead animals be consistent with the Minnesota Board of Animal Health regulations. When rendering is used as a mortality disposal the applicant shall provide an enclosed location for the pick-up.
8. That adequate measures be taken to minimize or control offensive odor, fumes, dust, noise, or vibrations so that none of these will constitute a nuisance.
9. That all manure storage structures must be designed by a registered engineer.
10. That within 60 days of completion of any new or modified manure storage area, the applicant shall furnish the final construction report to the County Environmental Services

department verifying that the concrete manure storage structure was constructed per approved engineered design plan. Said construction report shall be signed by the design engineer.

11. That the applicant complies with the storm-water control requirements established by the MPCA.
12. That MPCA construction Best Management Practices be followed including erosion control measures.
13. That all exposed earthen surfaces be seeded into grass or utilized as crop acreage.
14. If a shower, restroom, culinary and/or laundry facilities are to be included with the proposal, that wastewater handling practices are designed and constructed according to state requirements.

This Conditional Use Permit shall become effective immediately upon its passage and without publication.

The motion carried. 2019-137

Commissioner Stuehrenberg moved and Commissioner Campbell seconded the motion to approve the following resolution:

**RESOLUTION GRANTING APPROVAL OF A CONDITIONAL USE PERMIT TO TRANSFER THE RESIDENTIAL DEVELOPMENT RIGHT FROM THE NORTHWEST QUARTER OF THE NORTHWEST QUARTER TO THE NORTHEAST QUARTER OF THE NORTHWEST QUARTER ALL LOCATED IN SECTION 28, CAMBRIA TOWNSHIP. (T-109-N, R-29-W)**

**Legal Description**

*Transferred From:*

Northwest Quarter of the Northwest Quarter of Section 28, Cambria Township  
Township 109N, Range 29W

*Transferred To:*

Northeast Quarter of the Northwest Quarter of Section 28, Cambria Township  
Township 109N, Range 29W

As shown on Attachment A-1 General Location Map

**WHEREAS**, David & Carol Strenge, have made said request, and,

**WHEREAS**, the Planning Agency of the County has completed a review of the application and made a report pertaining to said request (PC 11-19), a copy of said report has been presented to the Planning Commission; and,

**WHEREAS**; the Planning Commission of the County on the 1<sup>st</sup> day of May 2019, following proper notice held a public hearing regarding the request, and following due consideration of presented testimony and information, voted unanimously to forward the matter to the County Board with a recommendation for approval subject to conditions contained in staff report PC 11-19 and,

**WHEREAS**; the County Board on the 21<sup>st</sup> day of May 2019, held a public hearing regarding the request, and following due consideration of presented testimony and information, voted unanimously to approve the request subject to conditions included in staff report PC 11-19 and,

**WHEREAS**, the Blue Earth County Board of Commissioners finds:

1. The Land Use Plan lists the following Objectives. Development Objective 1) Consider non-farm development that can be constructed with minimal impact to existing natural and built systems (e.g., wetlands and transportation). Housing Objective 1) Allow for the maintenance of a diverse housing stock throughout Blue Earth County to provide housing options for residents. Therefore, the request appears to be in harmony with the County's Land Use Plan.
2. Without the Transfer of Development Rights, the future construction of a residential dwelling would be required to take place in an area with a greater proximity to environmentally sensitive lands. In this case, the approval of a TDR will lessen the burden on the future developer. Therefore, the applicants have demonstrated a need for the proposed use.
3. With proper erosion control of the intended development area, the proposal does not appear likely to degrade the water quality of the county.
4. With proper planning of the proposed development, the quantity of water runoff should not be adversely affected.
5. According to Blue Earth County Soils Map, the proposed area of future development consists of Lester Loam, a well-drained and non-hydric soil type. Therefore, it appears as though the soil conditions for this site are adequate to accommodate the proposed use.
6. With proper planning of future development of the property, the proposal does not appear likely to create a potential pollution hazard.
7. That adequate utilities, access roads, drainage and other necessary facilities will be addressed as part of the construction permit review.
8. The property appears to have adequate space for off-street parking to accommodate any vehicles requiring access to the property.

9. The property appears to have adequate area to alleviate any traffic congestion or traffic hazards in this area.
10. The predominant use of the area is a mix of residential and agricultural uses. Transferring of the Residential Development Right and future development of the site appears unlikely to be injurious to the use and enjoyment of any property in its immediate vicinity for the purposes already permitted.
11. The approval of the Transfer of Development Rights will not impede the normal and orderly development and improvement of surrounding vacant areas.
12. With the development right transfer, the density of the area conforms to the Ordinance.
13. The protection of the public's health, safety, morals and general welfare have been addressed through the required performance standards for this Conditional Use and in the conditions included below.

**NOW THEREFORE BE IT RESOLVED**, by the Blue Earth County Board of Commissioners, that the request for a Conditional Use Permit to Transfer a Development Right from the Northwest Quarter of the Northwest Quarter to the Northeast Quarter of the Northwest Quarter all located in Section 28, Cambria Township (T-109-N; R-29-W) is **GRANTED** with the following conditions:

1. That the applicant shall obtain a construction permit prior to commencement of any future construction activities.
2. That any future splitting of the property within the receiving Quarter-Quarter Section, shall first meet the requirements outlined in the County Land Division Ordinance.

This Conditional Use Permit shall become effective immediately upon its passage and without publication.

The motion carried. 2019-138

Commissioner Landkamer moved and Commissioner Bruender seconded the motion to approve the following resolution:

**RESOLUTION GRANTING APPROVAL OF A CONDITIONAL USE PERMIT TO TRANSFER THE RESIDENTIAL DEVELOPMENT RIGHT FROM THE NORTHEAST QUARTER OF THE NORTHWEST QUARTER OF SECTION 19, JAMESTOWN TOWNSHIP TO THE SOUTHWEST QUARTER OF THE NORTHWEST QUARTER OF SECTION 19, JAMESTOWN TOWNSHIP. (T-109-N, R-25-W)**

## **Legal Description**

### *Transferred From:*

Northeast Quarter of the Northwest Quarter of Section 19, Jamestown Township  
Township 109N, Range 25W

### *Transferred To:*

Southwest Quarter of the Northwest Quarter of Section 19, Jamestown Township  
Township 109N, Range 25W

As shown on Attachment A-1 General Location Map

**WHEREAS**, Mark & Arlene Herzberg and Dave & Patsy Pongratz, have made said request, and,

**WHEREAS**, the Planning Agency of the County has completed a review of the application and made a report pertaining to said request (PC 12-19), a copy of said report has been presented to the Planning Commission; and,

**WHEREAS**; the Planning Commission of the County on the 1<sup>st</sup> day of May 2019, following proper notice held a public hearing regarding the request, and following due consideration of presented testimony and information, voted unanimously to forward the matter to the County Board with a recommendation for approval subject to conditions contained in staff report PC 12-19 and,

**WHEREAS**; the County Board on the 21<sup>st</sup> day of May 2019, held a public hearing regarding the request, and following due consideration of presented testimony and information, voted unanimously to approve the request subject to conditions included in staff report PC 12-19 and,

**WHEREAS**, the Blue Earth County Board of Commissioners finds:

1. That the proposed use conforms with the county land use plan.

*The County Land Use Plan includes an Agricultural Implementation Action that states the Transfer of Residential Development Rights (TDRs) within the Agricultural and Conservation Districts will continue to be allowed.*

2. The demonstrated need for the proposed use.

*The original 1998 sending Quarter-Quarter (Northwest Quarter of the Northwest Quarter) was and still is primarily farmland. It has no residential structure and the County Board found it reasonable to transfer the development right to the Northeast Quarter of the Northwest Quarter which is more fragmented and has more changes in topography. The receiving Quarter-Quarter section of the current proposal is split by CSAH 27 creating an odd-shaped farm field where the future development is proposed. The 1998 transfer could have gone to the south creating the same result as with the current proposal.*

3. That the proposed use will not degrade the water quality of the county.

*With proper erosion control of the intended development area, the proposal does not appear likely to degrade the water quality of the county.*

4. That the proposed use will not adversely increase the quantity of water runoff.  
*With proper planning of the proposed development, the quantity of runoff should not be adversely affected.*
5. That soil conditions are adequate to accommodate the proposed use.  
*According to Blue Earth County Soils Map, the proposed area of future development consists of mostly poorly drained, hydric soils. Blue Earth County Environmental Health staff have expressed some concern with the soils in the proposed development area. The processing of the future Administrative Land Split (ALS) of the parent parcel will require delineation of wetlands prior to submittal of the ALS application.*
6. That the proposed use does not create a potential pollution hazard.  
*With proper erosion control during future development of the property, the proposal does not appear likely to create a potential pollution hazard.*
7. That adequate utility, access roads, drainage and other necessary facilities have been or are being provided.  
*These items will be addressed as part of the construction permit review.*
8. That adequate measures have been or will be taken to provide sufficient off-street parking and loading space to serve the proposed use.  
*The property appears to have adequate space for off-street parking to accommodate any vehicles requiring access to the property.*
9. That facilities are provided to eliminate any traffic congestion or traffic hazard which may result from the proposed use.  
*The proposal has been reviewed by the County Public Works Department. They found that sight distances are adequate, however slightly inhibited by the trees along the southern property line. The sight distances should be improved with the upcoming 2020 reconstruction of this road where these curves are planned to be reconstructed to 55 mph alignments.*
10. That the conditional use will not be injurious to the use and enjoyment of other property in the immediate vicinity for the purposes already permitted.  
*The predominant use of the area is a mix of residential and agricultural uses. Transferring of the residential development right and future development of the site appears unlikely to be injurious to the use and enjoyment of any property in its immediate vicinity for the purposes already permitted.*
11. That the establishment of the conditional use will not impede the normal and orderly development and improvement of surrounding vacant property for predominant uses in the area.

*It appears unlikely that approval of this Transfer of Development Rights will impede any development efforts of the surrounding vacant areas.*

12. That adequate measures have been or will be taken to prevent or control offensive odor, fumes, dust, noise and vibration, so that none of these will constitute a nuisance, and to control lighted signs and other lights in such a manner that no disturbance to neighboring properties will result.

*This standard does not apply to this request.*

13. That the density of proposed residential development is not greater than the density of the surrounding neighborhood or not greater than the density indicated by the applicable zoning district.

*With the development right transfer, the density of the area conforms to the ordinance.*

14. That the intensity of proposed commercial or industrial development is not greater than the intensity of the surrounding uses or not greater than the intensity characteristic of the applicable zoning district.

*This standard does not apply to this request.*

15. That site-specific conditions and such other conditions are established as required for the protection of the public's health, safety, morals and general welfare.

*The protection of the public's health, safety, morals and general welfare have been addressed through the required performance standards for this type of conditional use and in the conditions included below.*

**NOW THEREFORE BE IT RESOLVED**, by the Blue Earth County Board of Commissioners, that the request for a Conditional Use Permit to Transfer a Development Right from the Northeast Quarter of the Northwest Quarter of Section 19, Jamestown Township to the Southwest Quarter of the Northwest Quarter of Section 19, Jamestown Township (T-109-N; R-25-W) is **GRANTED** with the following conditions:

3. That the applicants shall obtain a construction permit prior to commencement of any future construction activities.
4. That prior to commencement of any construction activities, a driveway permit shall be obtained from the County Public Works Department.
5. Prior to the commencement of any grading or filling activities related to the construction of the driveway or the residential structure, the applicants shall install the necessary erosion control measures and have them approved by County Staff.
6. That any future splitting of the property within the receiving Quarter-Quarter Section, shall first meet the requirements outlined in the County Land Division Ordinance.

This Conditional Use Permit shall become effective immediately upon its passage and without publication.

Commissioner Purvis abstained. The motion carried. 2019-139

Public comment was heard from Mr. Mike Guentzel, Madison Lake; Mr. John Bense, Eagle Lake; Mr. Lyle Groskreutz, Eagle Lake; Mr. Daryl Guentzel, Eagle Lake; Ms. Paula Kalinosky, Oakdale; Mrs. Erin Guentzel, Madison Lake; and Mr. Mark Chambers, Oakdale regarding PC 02-19.

Commissioner Bruender moved and Commissioner Stuehrenberg seconded the motion to approve the following resolution:

**RESOLUTION GRANTING APPROVAL OF AN AMENDMENT TO A CONDITIONAL USE PERMIT TO OPERATE A LARGE SOLAR ENERGY SYSTEM. THE PROPOSED PROJECT WILL SPAN UP TO APPROXIMATELY 6 ACRES AND WILL HAVE A POWER CAPACITY OF UP TO 1 MEGAWATT (MW), WHICH BY BLUE EARTH COUNTY STANDARDS, CLASSIFIES IT AS A LARGE ENERGY SYSTEM. THE PROPOSED AMENDMENTS INCLUDE CHANGING THE TYPE OF RACKING SYSTEM FROM FIXED TILT TO TRACKING, CHANGING THE LAYOUT AND CONFIGURATION OF THE PROJECT, CHANGING THE INTERCONNECTION POINT, RELOCATING THE SERVICE ROADS, AND POSITIONING THE PROJECT APPROXIMATELY 115 FEET FURTHER AWAY FROM THE CENTER OF CSAH 27. THE PROPERTY IS ZONED AGRICULTURAL AND IS LOCATED IN THE SOUTHWEST QUARTER OF THE SOUTHWEST QUARTER OF SECTION 5, LERAY TOWNSHIP. (T-108-N, R-25-W)**

**WHEREAS**, Leo and Sandra Koppelman, owners of the following real estate in the County of Blue Earth, Minnesota, to wit:

The Southwest Quarter of the Southwest Quarter of Section 5, Le Ray Township – Township 108 N, Range 25 W, Blue Earth County, Minnesota, as shown on Attachment A – Location Map.

**WHEREAS**, the Planning Agency of the County has completed a review of the application and made a report pertaining to said request (PC 02-19), a copy of said report has been presented to the Planning Commission; and,

**WHEREAS**, the request is consistent with the Land Use Plan, and Conservation and Shoreland Overlay District Conditional Uses, as authorized by the Blue Earth County Board of Commissioners; and,

**WHEREAS;** the Planning Commission of the County on the 1<sup>st</sup> Day of May 2019, following proper notice held a public hearing regarding the request, and following due consideration of presented testimony and information, voted unanimously to forward the matter to the County Board with a recommendation for approval subject to conditions contained in staff report PC 02-19 and,

**WHEREAS;** the County Board on the 21<sup>st</sup> Day of May 2019, held a public hearing regarding the request, and following due consideration of the additional information presented by the applicant, voted unanimously to approve the request subject to conditions contained in staff report PC 02-19 and,

**WHEREAS,** the Blue Earth County Board of Commissioners finds:

- a. That the proposed use conforms with the county land use plan.
  - *The current Land Use Plan as adopted in 2018 lists, the consideration of the development of alternative energy projects that avoid negative impacts to any nearby environmentally sensitive areas, as one of the Development Objectives. If the proposed project conforms to all State and County Stormwater requirements, it appears to be in harmony with the County's Land Use Plan.*
- b. The demonstrated need for the proposed use.
  - *The presence of a newly replaced County Drain Tile requires the project to be moved further to the south. Therefore, it appears a need for the amendment to the CUP has been established.*
- c. That the proposed use will not degrade the water quality of the county.
  - *Once constructed, fully vegetated and maintained, the proposed project should not generate any pollutants and therefore would likely not degrade the water quality of the county.*
- d. That the proposed use will not adversely increase the quantity of water runoff.
  - *Although the proposed project will increase the amount of impervious surface on the entire property, the actual ground surface will mostly be vegetated. In addition, these projects are required to submit a Stormwater Pollution Prevention Plan before a construction permit is issued. Therefore, it seems unlikely that the project would adversely increase the quantity of water runoff.*
- e. That soil conditions are adequate to accommodate the proposed use.
  - *According to the Blue Earth County Soils Map, the property consists of a series of soil types which are not classified as potentially highly erodible land. If the project area is re-vegetated and erosion control measures are installed and maintained until the vegetation*

*can secure the soil, it seems likely that the onsite soil conditions are adequate to support the proposed use.*

- f. That the proposed use does not create a potential pollution hazard.
  - *Once vegetation is established, it is unlikely that the proposed project would generate any pollutants, and therefore would likely not pose a pollution risk to the county.*
- g. That adequate utility, access roads, drainage and other necessary facilities have been or are being provided.
  - *The proposal has been reviewed by the County's Public Works department. They expressed no concerns with using the Township Road as an access point. If all loading / unloading, and future parking is done off-street it appears as though all necessary facilities are being provided. They did however express some concern with the proposed drainage of this project. If all concerns raised by the County's Water Planner, County's Ditch Manager, and the Director of the Public Works department are addressed, this project appears to be adequately addressing the required items in this standard.*
- h. That adequate measures have been or will be taken to provide sufficient off-street parking and loading space to serve the proposed use.
  - *The applicant stated that the construction phase will start with stabilizing the construction entrances and establishing parking and staging areas. In addition, the applicant stated that all employees will park within the project premises. During the future maintenance of the system, the access road and turnaround area will be utilized for parking. For these reasons, it appears that sufficient off-street parking and loading space is being provided.*
- i. That facilities are provided to eliminate any traffic congestion or traffic hazard which may result from the proposed use.
  - *The applicant stated that both, construction and maintenance crew parking will be located entirely within the site. In addition, they have stated no additional permanent parking is required for this project. For these reasons, it appears as though any possible traffic congestion or hazards should be eliminated.*
- j. That the conditional use will not be injurious to the use and enjoyment of other property in the immediate vicinity for the purposes already permitted.
  - *The applicant has stated they use engine mufflers during construction to mitigate noise. In addition, they have stated that construction will be limited to daylight hours. After construction and during operation, the project should not emit any adverse noise. For these reasons, it appears as though the approval of this conditional use will not be injurious to the use and enjoyment of other property in the immediate vicinity for the purposes already permitted.*

- k. That the establishment of the conditional use will not impede the normal and orderly development and improvement of surrounding vacant property for predominant uses in the area.
- *The proposed use does not have any additional setback requirements for a residential structure and does not require a residential development right in order to be constructed. Therefore, it seems unlikely that this project would impede the development of surrounding vacant property in the area.*
- l. That adequate measures have been or will be taken to prevent or control offensive odor, fumes, dust, noise and vibration, so that none of these will constitute a nuisance, and to control lighted signs and other lights in such a manner that no disturbance to neighboring properties will result.
- *Once completed, the proposed use should not generate any of the listed issues which could constitute a nuisance. In addition, this type of project is not permitted any type of lighted sign. Therefore, it is unlikely that this proposed use would create any disturbance for the neighboring property owners.*
- m. That the density of proposed residential development is not greater than the density of the surrounding neighborhood or not greater than the density indicated by the applicable zoning district.
- *This standard does not apply to this request.*
- n. That the intensity of proposed commercial or industrial development is not greater than the intensity of the surrounding uses or not greater than the intensity characteristic of the applicable zoning district.
- *This standard does not apply to this request.*
- o. That site-specific conditions and such other conditions are established as required for the protection of the public's health, safety, morals and general welfare.
- *The protection of the public's health, safety, morals and general welfare are addressed in the conditions recommended below.*

**NOW THEREFORE BE IT RESOLVED**, by the Blue Earth County Board of Commissioners that the amendment to the Conditional Use Permit to operate a Large Solar Energy System is hereby **GRANTED** with the following conditions:

1. Prior to the issuance of a construction permit, the applicant shall submit a revised Site Plan which incorporates all of the approved conditions.
2. The applicant applies for and receives a construction permit before the commencement of any construction activities related to this project.

3. Prior to the issuance of a construction permit, the applicant shall submit a copy of the interconnection agreement with the local electric utility or a written explanation outlining why an interconnection agreement is not necessary.
4. Prior to the issuance of a construction permit, the applicant shall receive an approval from staff regarding their chosen seed mix.
5. Prior to the issuance of a construction permit, the applicant shall post a bond, letter of credit or establish an escrow account in the amount of \$30,000.00 to ensure proper decommissioning.
6. Although the project requires natural groundcover beneath the solar arrays, the applicant must maintain this area and remove all noxious weeds on a regular basis.
7. The project must be constructed in a manner which does not damage Branch #2 or Branch #3 of the JD34 county drain tile.
8. After the completion of the construction phase of the project, the applicant must be able to prove no damage was done to Branch #2 or Branch #3. This must be accomplished by feeding a camera through Branch #2 and Branch #3.
9. All required setbacks established by the County Ditch Manager shall be maintained and not encroached upon by any project activities.
10. That the Township Road, 223<sup>rd</sup> Street, shall be used for establishing access to and from this site.
11. After the construction of the proposed project, 223<sup>rd</sup> Street shall be brought back to the same condition as it was prior to the construction of the proposed project.
12. Prior to the issuance of a construction permit, the applicant shall have the service area boundary line identified and marked by a licensed surveyor.
13. That hours of operation during the construction phase shall be limited to 7:00 a.m. to 5:00 p.m. Monday through Friday, and when needed from 9:00 a.m. to 4:00 p.m. on Saturdays.
14. The eastern boundary of the project shall be no further than 0 feet from the west side of the established service area boundary line.

15. That the access road shall enter the property as shown on the Site Plan, have a zero-foot setback to the west side of the service area boundary, and be no wider than 20 feet at any point.
16. The applicant, property owner, or future owners of the project shall plant two staggered rows of Cardinal Dogwood along the entire fence lines of the project.
17. The first row of Cardinal Dogwoods shall begin at the northeast corner of the fence line and continue for the entire perimeter of project.
18. The first row of Cardinal Dogwoods shall be planted no more than 6 feet away from the entire perimeter of the project.
19. The second row of Cardinal Dogwoods shall begin 4 feet from the northeast corner of the fence line and continue for the entire perimeter boundary of the project.
20. The second row shall be planted no more than 10 feet away from the entire perimeter of the project.
21. The Cardinal Dogwoods shall be planted no further than 8 feet apart, in their respective rows.
22. The applicant, property owner, or future owners / operators of this project shall replace any dead or dying portions of the vegetative screen every year prior to **June 1<sup>st</sup>**, until the proposed project is decommissioned.
23. The applicant shall have three reflective signs installed at the end of the service driveway, adjacent to CSAH 27, to ensure no future direct connection to CSAH 27.
24. Any amendments to the approved plans shall first be reviewed and approved by County staff.
25. Topsoil or other soils shall remain on site unless the site receiving the material is approved by the Blue Earth County Environmental Services Department.
26. Site development shall conform with the Civil Construction plans, Drainage Report memo, EOR Responses memo submitted to the Blue Earth County Environmental Services Department on **April 18, 2019**. Any revisions to the plans shall first be approved by the Blue Earth County Environmental Services prior to any land disturbance or construction activity.
27. As-built drawings prepared by a qualified engineering professional shall be submitted to the Blue Earth County Environmental Services Department within 30 days of completion of the stormwater system to certify the stormwater system was constructed as shown in the Civil Construction Plans and Drainage Report memo.

28. Drainage from the internal access roads, basin and basin overflow shall not be channelized or diverted to the road right of way including road ditches.
29. The applicant, property owner, or future owners / operators of this project are responsible for correcting erosion and sedimentation in the County road ditch within a reasonable time frame determined by the Blue Earth County Public Works Department.
30. Blue Earth County Environmental Services Department or its designee shall be allowed access to the site within a reasonable time frame to inspect vegetation, erosion and sediment controls, the permanent stormwater system and any nuisance complaints.
31. The applicant, property owner, or future owners of this project are responsible for regular inspections and maintenance of site vegetation and the permanent stormwater management system consistent with Operation and Maintenance Plan submitted **March 14, 2019**, and other versions revised hereafter, for the life of the project to ensure runoff from the site is reduced and treated following construction and there is no erosion and sedimentation in downstream channels and downstream property.
32. If there is expansion or change in use of the site, stormwater management systems shall be reviewed and revised by a qualified professional engineer and reviewed by the County.
33. All employee, construction and delivery parking shall be provided on-site.
34. Provisions shall be made to minimize the transport of sediment by runoff or vehicle tracking onto the road surface. Vehicle tracking, or sediment shall be removed from all public roadways by the end of each day.
35. That power poles related to this project shall not be located less than 65 feet from the center line of CSAH 27.
36. Prior to the issuance of a construction permit, the Operation and Maintenance plan shall be revised to show the Cardinal Dogwoods, maintenance, inspections, pruning, weed removal and the replacement of dead Cardinal Dogwoods for the life of the project.

This Conditional Use Permit shall become effective immediately upon its passage and without publication.

The motion carried. 2019-140

**HUMAN SERVICES**

Mr. Phil Claussen, Human Services Director, presented the following items to the Board:

Commissioner Piepho moved and Commissioner Stuehrenberg seconded the motion to approve the following Human Services items:

**Minnesota Department of Health** - Public Health Emergency Preparedness (PHEP). The purpose of this grant is for Minnesota Department of Health to provide funding to Blue Earth County in the Public Health Unit to increase and maintain operational readiness to respond to public health or other county emergencies. The funding term is from July 1, 2019 through June 30, 2020.

**Fraud Contract.** The fraud contract is in agreement between DHS and Blue Earth County to fund the Fraud Prevention Investigation activities. The primary purpose of the grant is to allow us to prevent, detect, and eliminate Public Assistance fraud. The grant amount is \$55,000.00. The term of the contract is July 1, 2019 through June 30, 2021.

**Disclosure of Interest by a Provider Entity.** This item is a form that is filled out by the Human Services and signed by our Board Chairperson allowing us to provide care coordination for individuals with chemical health needs. There are no financial implications related to this form nor is there an stated expiration of time frame.

The motion carried. 2019-141

## **ADMINISTRATIVE SERVICES**

Mr. Robert Meyer, County Administrator, presented the following items to the Board:

Commissioner Stuehrenberg moved and Commissioner Piepho seconded the motion to approve the May 7, 2019 Board Minutes. The motion carried. 2019-142

Commissioner Landkamer moved and Commissioner Stuehrenberg seconded the motion to approve the following bills:
