

Vehicle Activity + Traffic Changes

An overall increase in traffic is anticipated, as detailed below. Vehicles are expected to typically leave the site in the morning and return at the end of the day, with the majority exiting the site heading south on CSAH 16.

9%

anticipated passenger and heavy commercial vehicle traffic volume increase

120

anticipated increase in daily passenger vehicle trips

60

anticipated increase in daily tandem truck, motor grader, or other heavy commercial vehicle trips

TRAFFIC VOLUME IN 2018

2,000 average daily vehicles currently travel on CSAH 16 (Stoltzman Road)

Current design of Stoltzman Road can facilitate 10,000 vehicles in daily traffic volume
