Project Narrative

Blue Earth County received a grant to assist with the proper sealing of abandoned / improperly sealed wells in 2013. Some of these funds were used to target the remaining private water wells located in the Le Hillier Special Well Construction Area. The remaining grant funds will be used for other areas of the County as identified in our Abandoned Farmstead Inventory or County Abandoned Well Inventory, and through our well disclosure follow-up program.

Project Results

Blue Earth County sealed 54 wells utilizing well sealing cost-share assistance in 2013. Twenty (20) of the 54 sealed wells from 2013 were located in the Le Hillier Special Well Construction Area. The remaining 34 sealed wells were located throughout Blue Earth County.
